Subject: Antitrust Settlement

I find it amazing how much Microsoft is being allowed to get away with. It has become obvious that their money can get them anything they want. The settlement is a cover that does nothing but push Microsoft's software even further down the throats of the people of this country. It was found as fact that Miersoft has formed an illegal monopoly regardless of how the Judge acted. Yet Microsoft has found a way to wriggle their way out of it.

Let's stop helping the large companies and do what is right for the people of this country and and just do the right thing. DO NOT allow Microsoft to once again get away with their illegal business practices.

Thank you
Chris Hammond
